

## Job Description

### Position: Enterprise Application Developer

**Location:** Sheffield (preference) or Fulham, London.

**Salary:** £25,000 – £45,000, dependent on experience.

**Benefits:** All staff have the option to acquire stock in the firm.

**Role type:** Full time role. Right to work in UK required.

**Start:** Immediate.

Rockshore is a small, but rapidly expanding company and is looking to grow its Sheffield-based development team. You will collaboratively work with the CTO develop Rockshore's core products and customer solutions for the firms managed services business.

#### Functional skills:

##### Required:

Software development: Java (preferred) or C#.

Enterprise: Understanding of software architecture principles and design patterns for enterprise applications.

##### Advantageous:

Software development: J2ME, Symbian.

Enterprise: JEE, ESB, Messaging, Web Services, Struts, Hibernate, Jasper

Process: Agile Development, UML.

Product experience: JBoss AS, MySQL

Infrastructure experience: Linux, Firewall/VPN config.

You will have worked with JEE (or comparable) technology and will have developed a number of applications that were deployed in live enterprise environments. Ideally you will have deployed secure and resilient Internet based applications in high availability environments.

#### Personal skills:

You will be a highly motivated individual with a keen interest in the development of applications based on the latest Internet technologies. Working as a member of a tightly knit team you will be comfortable in taking responsibility for the design and delivery of discreet system components and in some cases complete projects. You will need the confidence and ability to actively participate in technical architecture and strategy discussions.

Ideally you will have a graduate degree and a personal interest in software development.

Above all else, Rockshore is looking for the right people to join this young and dynamic team. We value a flexible and positive work ethic and are seeking enthusiastic candidates with a 'can do' attitude.
